

<2019 年度 アイセンター 論文発表>

【英文論文】

1. Yoshitake S, Murakami T, Uji A, Fujimoto M, Dodo Y, Suzuma K, Tsujikawa A: Granular lesions of short-wavelength and near-infrared autofluorescence in diabetic macular oedema. *Eye* 33: 564–571,2019
2. Takagi S, Kudo S, Yokota H, Akiba M, Mandai M, Hiramami Y, Takahashi M, Kurimoto Y, Ishida M: Assessment of the deformation of the outer nuclear layer in the Epiretinal membrane using spectral-domain optical coherence tomography. *BMC Ophthalmol* 19: 1: 113, 2019.
3. Miyamoto N, Mandai M, Oishi A, Nakai S, Honda S, Hirashima T, Oh H, Matsumoto Y, Uenishi M, Kurimoto Y: Long-term results of photodynamic therapy or ranibizumab for polypoidal choroidal vasculopathy in LAPTOP study. *Br J Ophthalmol* 103; 6: 844-848, 2019
4. An G, Akiba M, Yokota H, Motozawa N, Takagi S, Mandai M, Kitahata S, Hiramami Y, Takahashi M, Kurimoto Y: Deep Learning Classification Models Built with Two-step Transfer Learning for Age Related Macular Degeneration Diagnosis. *Conf Proc IEEE Eng Med Biol Soc.*2019:2049-2052, 2019. doi: 10.1109/EMBC.2019.8857468.
5. Kubota F, Suetsugu T, Kato A, Gomi F, Takagi S, Kinoshita T, Ishikawa H, Mitamura Y, Kondo M, Iwahashi C, Kuwayama S, Kurimoto Y, Ogura Y, Yasukawa T, on Behalf of the Japanese clinical retina study (J-crest) group: Tilted disc syndrome associated with serous retinal detachment: Long-term prognosis. A retrospective multicenter survey. *Am J of Ophthalmol* 207: 313-318, 2019.
6. Motozawa N, An G, Takagi S, Kitahata S, Mandai M, Hiramami Y, Yokota H, Akiba M, Tsujikawa A, Takahashi M, Kurimoto Y: Optical coherence tomography-based deep-learning models for classifying normal and age-related macular degeneration and exudative and non-exudative age-related macular degeneration changes. *Ophthalmol Ther* 8: 527-539, 2019
7. Ito SI, Takagi S, Takahashi M, Sugita S, Hiramami Y, Fujihara M, Uzu T, Azumi A, Kurimoto Y: Bilateral retinitis after influenza virus infection in a case report.
